

Warbler Ringing Totals at Stanford Reservoir by Year

The table below shows annual totals (adult & pulli) of the main warbler species ringed at Stanford.

The general trend of increasing warbler numbers (breeding and migratory) is a deliberate consequence of the environmental management work undertaken by the Stanford Ringing Group.

Key - Highest year total for a species in **Red**, second highest in **Blue**, third highest in **Green**.

	Cetti's	Grasshopper	Sedge	Reed	Lesser White	Whitethroat	Garden	Blackcap	Chiffchaff	Willow	TOTALS
